this book is about enforcing privacy and data protection it demonstrates different approaches regulatory legal and technological to enforcing privacy if regulators do not enforce laws or regulations or codes or do not have the resources political support or wherewithal to enforce them they effectively eviscerate and make meaningless such laws or regulations or codes no matter how laudable or well intentioned in some cases however the mere existence of such laws or regulations combined with a credible threat to invoke them is sufficient for regulatory purposes but the threat has to be credible as some of the authors in this book make clear it is a theme that runs throughout this book carrots and soft law need to be backed up by sticks and hard law the authors of this book view privacy enforcement as an activity that goes beyond regulatory enforcement however in some sense enforcing privacy is a task that befalls to all of us privacy advocates and members of the public can play an important role in combatting the continuing intrusions upon privacy by governments intelligence agencies and big companies contributors to this book including regulators privacy advocates academics smes a member of the european parliament lawyers and a technology researcher share their views in the one and only book on enforcing privacy

reprint of the original first published in 1877 the antigonos publishing house specialises in the publication of reprints of historical books we make sure that these works are made available to the public in good condition in order to preserve their cultural heritage
